If one or more of questions 1–9 on the checklist has been answered with yes, please describe the study scheme in a separate document. A detailed and thorough explanation must be submitted, stating why said item or items have been answered with yes. Please go into detail about how you will ensure compliance with the ethics guidelines pertaining to this item or these items.
If one or both of questions 10–11 has been answered with yes, please answer directly the corresponding additional questions.
If in question 10, one or both additional question(s) has been answered with no, please describe in a separate document why this is necessary and how you will ensure compliance with the ethics guidelines pertaining to this item or these items.

Please note that in all cases it is required to inform participants in advance in as detailed a manner as possible about the procedure of the study, collect their informed consent in writing and ensure confidentiality of data collection and storage thereof. **Forms of clarification and informed consent must be attached to this application**. The Ethics Commission must be reconsulted if essential modifications of the study occur during data collection.

I certify that to the best of my knowledge all information in this application is accurate .
